AZONOSÍTÓ ADATOK

Név
szak
csoport
műveltségterület

A MEGPÁLYÁZOTT ERASMUS-TANULMÁNYOKHOZ KAPCSOLÓDÓ ADATOK

Célintézmény(ek) (a pályázati felhívás szerint)

- 1 UNIVERSITY OF JYVÄSKYLÄ (SF JYVASKY01)
2. UNIVERSITAT AUTONOMA DE BARCELONA (E BARCELO02)
3. UNIVERSITÉ DE LAUSANNE SWITZERLAND (CH LAUSANN01)

Motiváció (személyes/szakmai):

I really want to learn languages, and its best way to live in a foreign country.. In abroad I would like to learn my subjects in english, thats why I 've started an intensive English course, here in Hungary months ago.My main aim, before I get my degree.,to take an advanced english language exam. But I'm going to start to learn the language of the country,where I'll live with this scholarship. After I come home,I would like to take an intermediate language exam from that language. Because these aims I want to practice, and get experiences.

I think its a good choise in my profession. I'm really interested in how does the learning system work,or how they protect their nature (environmental protection), or what kind of possibilities they use.

Until I'm in abroad with this scholarship, I'm going to join to an environmental activist group, to help them, and learn something new, what I can use here in Hungary.

Általános célkitűzések (személyes/szakmai):

I want to meet new people and meet better an other country. I'm interested in other cultures, their folk-habits, their ideology. I'm going to get a line on the status of this country (first of all environmental status, what they think about renewable energysources.

After I finished my studies, I would like to get some work-experiences, what I can use later in Hungary.

Konkrét tanulmányi célkitűzések (a pályázató tanszékkal egyeztetve):

University of Jyväskylä:

- Biogeography
- Environmental Physics
- -HIJK
- ABCD

Universitat Autònoma de Barcelona:

- Natural environment prospecting
- Forest ecology

Université de Lausanne Switzerland:

- Biology of invasive species
- Internship in the Alps
- etc

Az Erasmus tanulmányokat megalapozó eddigi szakmai/tanulmányi eredmények

My subjects on the ELTE Nature-science Faculty, environmental studies mean a really good ground. Thats why I've chosen these subjects.

Az Erasmus tanulmányoktól várt eredmények

Learn new things, get new informations,flare of my profeesional experiences ,improve my english and other language,. To meet the country, get new friends.
