

MOTIVATIONAL LETTER, EDUCATION PLAN

IDENTIFICATION DATA

Name	Virág Piros
department	Chemistry
team	Green Chemistry
field of scholarship	Organic Chemistry

DATA ABOUT PLANNED ERASMUS STUDIES

Institutes of destination (according to the tender)	1. UNIVERSITY OF FRANCHE-COMTÉ 2. UNIVERSITY OF LEEDS 3. UNIVERSITY OF HELSINKI
---	---

Motivation (personal/professional):	I would like to improve my language skills (especially in French), get to know other cultures and meet people from foreign countries.
-------------------------------------	---

General aims (personal/professional):	I would like to make a research in the field of application of ionic liquids as solvents for organic chemistry. It would be also a good chance for me to use professional English day by day, which will be useful in my future publications.
---------------------------------------	--

Exact educational aims (according to the desired professorship):	I would like to work in the team of Patrick Giradoux in the question of environmental research and environment friendly application chemical processes. I would also like to attend his course named Master Vie Terre Environnement Santé Société.
--	--

Former professional/educational results underlying Erasmus studies	I have attended several courses of Eötvös Loránd University of Science in the field of organic and green chemistry. I also co-published a scientific article about our researches in the application of ionic liquids.
--	--

Results expected from Erasmus studies	I would like to get to know new approaches in the application of ionic liquids, and also use yet unfamiliar technologies. I also expect to improve my language skills.
---------------------------------------	--
